## REPORT OF SCHOOL BOARD

### ESTIMATES FOR SCHOOL YEAR COMMENCING JULY 1, 1926:

Statutory requirements:	
For high school tuition,	\$800 00
For per capita tax,	250 00
For superintendent's excess salary,	140 00
For district officers,	125 00
For transportation,	250 00
For support of elementary schools, the amount of a tax of \$5 per \$1,000 of equalized valuation,	4,322 00
	\$5,887 00

It is not our purpose to make any extended remarks about our schools as our superintendent has a much better chance of observing conditions than the School Board and we would refer all interested in school work to his report.

We feel quite confident, all things considered, the work of the schools this year has been fully up to the standard of previous years. The teachers have been devoted to their work and have worked in harmony with scholars and parents.

Every citizen, whether he has children or not should be interested in the education of our boys and girls for in a few years the affairs of the town will be in their hands.

## REPORT OF SUPERINTENDENT OF SCHOOLS

---

To the School Board of Harrisville:

I herein submit my third annual report as superintendent of your schools.

Horace Mann, the father of the free system of public schools in New England, once said:

“Whatever ground of confidence there may be for the perpetuation of our civil and religious liberties; whatever prospect of the elevation of our posterity; whatever faith in the general Christianization of the world—these aspirations and this faith depend upon teachers, more than upon any, more than upon all, other human instrumentalities united.”

Whether we accept this statement in its entirety or not, there is no doubt that millions of children now have a better chance in life because of the work of Horace Mann. Our Democracy is surer, our ideals of living and of serving are higher because of his leadership. Our great American public school system owes to him a debt larger than to any other single man.

As is the teacher, so is the school, is a long standing maxim of American life.

We trust in this report we may furnish some reasons that will compensate the tax payer and make the citizens of Harrisville feel that the chances of the rising generation of boys and girls are better because of the service that their schools have rendered unto them during the past year.

## CHESHAM SCHOOL

Miss Marion S. Guild, teacher, for year ending June 30.

Number of promotions in respective grades

	I	II	III	IV	VI	VIII
	2	5	4	9	1	2
Not promoted	1		1		1	

This was Miss Guild's second year of service in this school. Miss Guild proved herself an efficient instructor. Her school was always well organized and doing good work. She was not only alive to her duties in the school room but also took an active part in the playground activities. A school of twenty-four pupils with six grades demands not only good organization but also strenuous effort on the part of the teacher to conserve the utmost economy of time during school hours, much time outside of school hours for preparation and strict conformity to modern types of teaching.

The following standard tests were given: Ayres Spelling, Charter's English, Woody-McColl Arithmetic and Stanford's Achievement. The results indicated that the school was well graded.

On Friday, June 12, Ruth Bemis and Walter E. Rowe, Jr., were graduated from the eighth grade. Miss Bemis and Mr. Rowe are continuing their studies at the Keene High School.

Miss Guild having resigned, Miss Beatrice Hickey was transferred from the East View as teacher at the beginning of present year. At the present writing, Miss Hickey has the school well in hand. Good progress is being made. The pupils are responsive in their work and a good school spirit seems to exist.

## VILLAGE SCHOOLS

Grammar grades for year ending June 30, Louise Baldasaro, teacher.

Primary grades, Pauline Wells, teacher.

The grammar grades maintained the highest percent of attendance, the primary grades the least number of tardy marks per pupil of the Harrisville schools. These records are certainly the earmarks of a successful school.

Regularity in attendance and punctuality are habits that are the foundations of a successful life.

Efficient teaching and extensive drill work were the characteristic features of both schools throughout the year. At the end of the year, the following number of pupils were promoted:

Grades	I	II	III	IV	V	VI	VII	VIII
Promoted	10	10	7	4	9	10	9	6
Not promoted	1						2	

During the year, Ayres Spelling, Charter's English, Woody-McColl Arithmetic and Stanford's Achievement tests were given.

The results revealed a normal growth in all classes.

### GRADUATION

On the evening of June 5th, the following pupils were graduated from the grammar school:

Margaret Bonnette, Philip J. Casswell, Yvonne H. Lavigne, Bernice Rapchess, Marie F. Sills and Arthur V. Tierney.

The parts were all well rendered and showed work on the part of pupils and teacher.

### EAST VIEW SCHOOL

Teacher for year 1924 to 1925, Beatrice Hickey.

Teacher since September, to date, Helen Murphy.

Number of pupils by grades for year ending June 30:

Grades	I	II	III	IV	V	VI
	2	1	3	2	2	3
Promoted	2	1	3	2	1	2

Miss Hickey continued her services throughout the year ending June 30. Miss Hickey proved herself efficient in instruction and alert to the interests of the children, not only in the school room but also on the playground. The children always appeared responsive to all the activities of the school life.

The following standard tests were given: Ayres Spelling, Charter's English, Woody-McCall Arithmetic, and Stanford's Achievement. The results showed a reasonable improvement over the year previous. Miss Helen Murphy, a graduate of Keene Normal, was elected for the year beginning Sept. 8th. Miss Murphy has the school well organized and is receiving the co-operation of scholars and parents. Through her motivated teaching, the school has taken on that additional industry in work, courteous bearing and polite manners that it is a pleasure to visit the school. Not only is efficient work being done in the fundamentals, viz., reading, spelling, numbers, geography, history and English, but also commendable work in music and drawing. Through the efforts of teacher and scholars a Victrola has been obtained for the school.

**REPAIRS:** The following needed improvements have been made to the school room: fresh coats of paint for the floor, walls and ceiling; seats cleaned and varnished and new hyoplate blackboards installed.

#### CHANGE IN HIGH SCHOOL TUITION LAW

The last legislature made a radical change in high school tuition. That all may become familiar with its basic principles, I herein insert an excerpt of the law: Chapter 120, Section 26:

“Any district not maintaining a high school or school of corresponding grade shall pay for the tuition of any child who, with parents or guardian, resides in said district, and who attends high school or academy in another district in this state, and the parent or guardian of such child shall notify the school board of the district in which he resides of the high school or academy which he has determined to attend; provided, however, except as in section 21, that no district shall be liable for tuition of a child in any school, in excess of the average cost per child of instruction for the regularly employed teachers of that school or of all the public schools of the state, and the cost of textbooks, supplies and apparatus during the school year preceding and in senior high school work only.”

In conclusion, I wish to acknowledge the cordial co-operation of citizens and parents, and to express my gratitude to the school board, who have given liberally of their time for the good of the school system.

Respectfully submitted,

FREDERICK T. JOHNSON,

Superintendent of Schools.

Marlboro, N. H., Feb. 10, 1926.
